

Leaf

Ideas, sound effects and pictures by Stephen Michael King

A book without words is so quiet.

It allows you to take your time over every page, listening to the story in your head. Stephen

Michael King is a master at this, with his charming and intriguing illustrations that come alive and speak for themselves. Choose a quiet moment to share this book with a little one and find out for yourself what happens when a rough and tumble boy, who hates having his hair

combed, discovers that strange things can happen when you have messy matted hair.

★★★★★ Scholastic \$19.99
